Curbside Waste Collection/Pick-up

During the month of July, Charlton County along with Advanced Disposal conducted a residential trashcan audit to evaluate the number of trashcans being serviced by Advanced Disposal. During this audit the County noticed several trashcans which were not identified by either Advanced Disposal or County records. With this in mind, please take the time to read through the following,

1. Residential waste pickup begins at 6:00 AM in the morning, please ensure that your trashcan is brought to the curbside the night before your expected date of pickup.
2. Advanced Disposal will only be picking up their trashcans. We understand that some trash cans may be identified by names such as BFI or Stateline, and may even be a different color than that of the majority of Advanced Disposal trashcans.
3. These trashcans do belong to Advanced Disposal and are currently in the process of being switched out with new trash cans that have the Advanced Disposal logo to ensure they are only picking up the trashcans in which residents are paying services for.
4. Trashcans that are not identified or provided for by Advanced Disposal and have not been paid for by the resident to the County, will not be picked up.
5. To ensure that your trash can is identified by Advanced Disposal and Charlton County, please contact the permitting office at **(912) 496-3826**. ***Please note that if your trashcan is identified by the name of BFI or Stateline, this is in fact an Advanced Disposal trashcan, just without the proper markings. These are slowly being processed out.
6. Trashcans which are purchased from general and hardware stores **will not** be picked up.
7. If you require an additional trashcan, please contact the number listed above so that we may accommodate you.
